

HiTHERM®

HOT OR COLD WE GOT YOU COVERED

February 19, 2009

Mr. Bob Madsen
PIR Foam Supply
2910 Brookspark Dr.
N. Las Vegas, NV 89030

HT 300 is a LEED ELIGIBLE PRODUCT. Its use may help building projects meet green building standards as set by the Leadership in Energy and Environmental Design (LEED) Green Building Rating System. The corresponding credits that apply will be 4.1-4.2 and 5.1-5.2 for content and materials.

Please call if you should have any questions or need additional information.

Very truly yours,

Aniq Sufi
President & CEO

Cc: Mr. Roberto Difranchesco—HiTherm. LLC
The following is reproduced from LEED's website:

“USBGC does not certify, endorse or promote products, services or companies, nor do we track, list or report data related to products and their environmental qualities.” It goes on to say that:

“LEED is a certification system that deals with the environmental performance of buildings based on overall characteristics of the project. We do not award credits based on the use of particular products but rather upon meeting the performance standards set forth in our rating systems. It is up to project teams to determine which products are most appropriate for credit achievement and program requirements.”
